Evaluation: Project Two
Wood Light Frame Construction

Student Team: ____________________________

Grade (25 points possible): _____________

Content
For each component listed below, be sure to include, as appropriate, information and elements listed below, or others as required.

- Dimensions & spacing of wood members
- Configuration
- Connection configuration & fasteners
- Reinforcement
- Air infiltration/moisture retarder
- Vapor retarder
- Insulation (if appropriate)
- Headers
- Interior & exterior sheathing
- Siding
- Roofing

- Foundation (4 points)

- Floor Assembly (4 points)

- Wall Assembly (4 points)

- Roof Assembly (4 points)

Satisfaction of programmatic requirements (4 points)

- Satisfaction of code requirements
- Design (simple & elegant)
- Economical
- Energy Efficient
- Ease of construction

Quality and Completeness of Presentation (4 points)

- Model
- Drawings

Participation in Critique (1 point)
