EDUCATION

Ph.D. Dartmouth College, Hanover, NH, December 2000, Biological Sciences – Ecology & Evolutionary Biology

B.A., Colgate University, Hamilton, NY, May 1991, Biological Sciences

POSITIONS HELD

- 2011 – Present Associate Professor, University of Idaho, College of Natural Resources, Dept. of Fish and Wildlife Sciences
Adjunct Associate Professor, Dept. of Biological Sciences, Dept. of Geological Sciences, Environmental Sciences and Water Resources Graduate Program
- 2013 – 2015 Visiting Associate Professor, Massachusetts Institute of Technology, Dept. of Earth, Atmospheric and Planetary Sciences, Cambridge, MA, USA.
- 2005 – Present Visiting Assistant/Associate Professor, University of Michigan, Department of Geological Sciences
- 2006 – 2012 Affiliate Scientist, University of Montana, Flathead Lake Biological Station
- 2005 – 2011 Assistant Professor, University of Idaho, College of Natural Resources, Dept. of Fish and Wildlife Sciences
- 2001 – 2005 Postdoctoral Fellow and Visiting Assistant Professor – University of Michigan, Depts. of Geological Sciences and Biological Sciences
- 2000 – 2001 Aquatic Ecology Consultant, Conservation International Foundation
- 1994 – 2000 Graduate Research and Teaching Assistant, Dartmouth College
- 1991 – 1994 Research Assistant, Michigan State University, Kellogg Biological Research Station

SCHOLARSHIP ACCOMPLISHMENTS**Peer Reviewed Publications (*graduate student mentee, **undergraduate advisee)**

- *Hegg, J., Giarrizzo, T., and **Kennedy, B.P.** (2015) Diverse early life history strategies in migratory Amazonian catfish: Implications for conservation and management. *PLOS One*, *In press*.
- *Myrvold, K.M. and **Kennedy, B.P.** (2015) Metabolic constraints and physical habitat characteristics explain the spatial variation in the strength of self-thinning in a stream salmonid. *Ecology and Evolution*, *In press*.
- *Myrvold, K.M. and **Kennedy, B.P.** (2015) Age-specific density dependence and its impact on individual growth rates for a stream salmonid. *Ecosphere*, *6(12): NA*.
- *Myrvold, K.M. and **Kennedy, B.P.** (2015) Variation in juvenile steelhead densities in relation to instream habitat and watershed characteristics. *Transactions of the American Fisheries Society*. *In press*.
- *McIlraith, B.J., Caudill, C.C., **Kennedy, B.P.**, Peery, C.A., and Keefer, M.L. (2015). Seasonal migration behaviors and distribution of adult Pacific Lamprey in unimpounded reaches of the Snake River basin. *North American Journal of Fisheries Management*, *In press*.
- *Hartson, R.B. and **Kennedy, B.P.** (2015) Competitive release modifies the impacts of hydrologic alteration for a partially migratory stream predator. *Ecology of Freshwater Fish*. *24(2): 276-292. (Included in application packet)*

Peer Reviewed Publications (in review or submission in December 2015 – available upon request)

- Myrvold, K.M. and Kennedy, B.P. *Revision*. Site fidelity and non-migratory movement in a stream salmonid. *Canadian Journal of Fisheries and Aquatic Sciences*.
- Mitchell, L.R.J., Kennedy, B.P., and Fremier, A.K. *In review*. Partitioning isotopic variability in stream biota and identifying environmental correlations in a Wilderness watershed. *Freshwater Science*.
- Cromwell, K.J. and Kennedy, B.P. *In review*. Disparities in benthic and drift abundance and diversity in a Wilderness watershed and their relationship to juvenile salmon foraging. *Freshwater Biology*.
- Myrvold, K.M. and Kennedy, B.P. *In review*. Estimation of salmonid abundance based on single-pass electrofishing in small streams. *Northwest Science*.
- Kennedy, B.P., and Gayeski, N. *In prep*. The survival consequences for alternate life history strategies of Chinook salmon. *Environmental Biology of Fishes*.

Refereed Project Reports

Gayeski, N., **Kennedy, B.P.** and Reader, J. 2011. Alternative life history strategies of Chinook salmon in the Cedar River: habitat selection and relative survival of strategies for Chinook salmon. Final Report to the Instream Flow Committee, Seattle Public Utilities.

Kennedy, B.P. and committee – Strategic Plan for Taylor Wilderness Research Center. Presented to NSF in fulfillment of funding obligation through NSF.

Kennedy, B.P. 2009. Exploring the utility of otolith microchemistry to describe life history variation and migrational strategies of Chinook salmon in the Middle Fork of the Salmon River. Completion Report to USDA – Forest Service, Rocky Mountain Research. Joint Venture Agreement 06-JV-11221659-220

Kennedy, B.P. 2009. Examination of the utility of otolith microchemistry to identify source habitats for trout within the Henry's Fork watershed. Completion Report to Henry's Fork Foundation and Idaho Fish and Game.

Recent professional Talks – Invited since 2013 (23 total during UI employment)

March 2014. Universitat de Girona, Spain, Depts. of Biology and Environmental Sciences, Girona, ESP. The ecological and evolutionary significance of migration by salmon. B.P. Kennedy.

October 2013. Colgate University, Dept. of Biology and Geological Sciences, Hamilton, NY. USA. Understanding the adaptive significance of salmon migration with the help of geochemical tracers. B.P. Kennedy.

September 2013. Massachusetts Institute of Technology, Dept. of Earth, Atmospheric and Planetary Sciences, Cambridge, MA. USA. Understanding the drivers of Sr isotope variation and life history diversity in a Wilderness watershed. B.P. Kennedy,

May 2013. Eastern Washington University, Dept. of Geological Sciences, Cheney, WA. USA. The use of geochemical signatures to understand salmon migration. B.P. Kennedy,

Recent Professional Meeting Abstracts – 2013 to 2015 (> 90 total during UI employment, * = graduate student presenter)

August 2015. American Fisheries Society Annual Symposium, Portland, OR, USA. Linking life history strategy to Environment: Using otolith microchemistry and growth to model stage-specific movement of juvenile Fall Chinook salmon. B.P. Kennedy, J. Hegg, R.W. Zabel, and P. Chittaro.

August 2015. American Fisheries Society Annual Symposium, Portland, OR, USA. The limits of prediction: Applying strontium isoscape predictions to otolith studies across spatial scale and geologic heterogeneity. J. Hegg, B.P. Kennedy, and A. Fremier.*

August 2015. American Fisheries Society Annual Symposium, Portland, OR, USA. Densities of juvenile steelhead in relation to instream habitat and watershed characteristics. K.M. Myrvold, and B.P. Kennedy.*

*August 2015. American Fisheries Society Annual Symposium, Portland, OR, USA. Variability of life history expression in *Oncorhynchus mykiss*: causes and consequences of partial migration. J. Caisman*, and B.P. Kennedy.*

August 2015. American Fisheries Society Annual Symposium, Portland, OR, USA. The effects of two pre-smoltification life history expressions have on juvenile Chinook salmon growth, migration timing, and fork

- length in a Wilderness environment. B. Oldemeyer*, B.P. Kennedy, and T. Copeland.
- August 2015. *American Fisheries Society Annual Symposium, Portland, OR, USA*. Identifying life history variation to inform recovery planning for Upper Willamette River Chinook salmon. C.C. Caudill, S. Bourret, M. Keefer, B. Clemens, B.P. Kennedy, G. Taylor, and C. Sharpe.
- August 2015. *American Fisheries Society Annual Symposium, Portland, OR, USA*. Distribution and behavior of adult Pacific lamprey (*Entosphenus tridentatus*) translocated into tributaries of the Snake and Clearwater Rivers, ID. B. McIlraith, C. Peery, D. Statler, J. Hess, C. Caudill, B.P. Kennedy, and E. Crow Jr.
- May 2015. *Advances in the Population Ecology of Stream Salmonids International Symposium. Gerona, Spain*. Interactions of climate and density on survival and movements of juvenile steelhead: Results from a 7-year study. B.P. Kennedy, K.M. Myrvold, J. Caisman, R. Hartson and E. Benson.
- May 2015. *Advances in the Population Ecology of Stream Salmonids International Symposium. Gerona, Spain*. Local habitat conditions explain the variation in self thinning slopes in steelhead parr. K.M. Myrvold*, and B.P. Kennedy.
- May 2015. *Advances in the Population Ecology of Stream Salmonids International Symposium. Gerona, Spain*. Modeling spatially explicit life history strategies in juvenile Chinook salmon using location specific data from otoliths. J. Hegg*, B.P. Kennedy, R. Zabel and P. Chittaro.
- May 2015. *Advances in the Population Ecology of Stream Salmonids International Symposium. Gerona, Spain*. Dichotomous life history expression of juvenile Chinook salmon in a Wilderness watershed: The effects of growth and size on migration timing. B. Oldemeyer*, B.P. Kennedy and T. Copeland.
- August 2014. *Annual International Meeting of the American Fisheries Society. Quebec, Montreal, CA*. Partial migration of *Oncorhynchus mykiss* in Lapwai Creek, Idaho. J. Caisman* and B.P. Kennedy.
- June 2014 *Lapwai Basin collaborators meeting, Lewiston, ID*. Spatial and temporal patterns of density, growth, movement, and survival in the Lapwai Basin. B.P. Kennedy, J. Caisman, K.M. Myrvold, E.R. Benson and R. Hartson.
- May 2014. *Joint Aquatic Sciences Meeting. Portland, OR*. Assessing nitrogen isotopic variation in the aquatic biota of a wilderness watershed across trophic levels, time, space and local environmental conditions. L. Mitchell*, A. Fremier and B.P. Kennedy.
- April 2014. *Annual Meeting of the Western Division of the American Fisheries Society, Mazatlán, MX*. Diverse Life History Strategies in an Migratory Amazonian Catfish: Implications for Conservation and Fisheries. J. Hegg*, T. Giarrizzo and B.P. Kennedy.
- April 2014. *Annual Meeting of the Western Division of the American Fisheries Society, Mazatlán, MX*. Modeling spatially explicit life history strategies in juvenile Fall Chinook Salmon: Integrating microchemical signatures to improve determination of source location. J. Hegg*, B.P. Kennedy, R. Zabel and P. Chittaro.
- February 2014. *Annual meeting for the Idaho Chapter; American Fisheries Society, Idaho Falls, ID, US*. Effects of Anthropogenic Barriers on Movement, Gene Flow Potential, and Life-History Expression of *Oncorhynchus mykiss* in Lapwai Creek, Idaho. J. Caisman*, B.P. Kennedy, M.W. Ackerman, C.J. Smith and J. Stedman.
- October 2013. *State of Idaho EPSCoR Conference, McCall, ID, US*. Responses of Chinook (*Oncorhynchus tshawytscha*) spawning behaviors to climate impacts in the Salmon River Basin. J. Helsley*, E.J. Hamann and B.P. Kennedy.
- August 2013. *BPA Snake River Fall Chinook Program Review; Lower Snake River Compensation Plan, Clarkston, WA, US*. Otolith Microchemistry: Early Rearing locations and juvenile life history in Snake

River Fall Chinook salmon. J. Hegg*, B.P. Kennedy, R. Zabel and P. Chittaro.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Predicting Fish Location Using Otoliths and Bedrock Geology: Understanding the Effects of Geologic Heterogeneity. J. Hegg*, B.P. Kennedy and A. Fremier

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* The extant and strength of density dependent in a juvenile salmon population. B.P. Kennedy and R.B. Hartson.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Patterns and process of density dependent growth in juvenile steelhead in Lapwai Creek, ID. K.M. Myrvold* and B.P. Kennedy.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Life cycle modeling of fall Chinook salmon: using multiple chemical tracers to improve discrimination of wild and hatchery fish. J. Hegg*, B.P. Kennedy, R. Zabel and P. Chittaro.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Looking beyond marine derived nutrients: Physical and biological drivers of isotopic variation in the aquatic biota of a wilderness watershed. L.Mitchell*, B.P. Kennedy and A. Fremier.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Size and density dependent outmigration of juvenile *Oncorhynchus mykiss*. J. Caisman*, B.P. Kennedy and K.M. Myrvold.

April 2013. *Annual meeting for the Western Division; American Fisheries Society, Boise, ID, US.* Salmon life history in an altered landscape: reconstructing juvenile migration using chemical and structural analysis. S. Bourret*, B.P. Kennedy, C.C. Caudill and L. Borgerson.

Major Grants and Contracts Awarded

Active awards

IGERT – NSF Adaptation to change in water resources: science to inform decision making across disciplines. \$3.3M. CoPI's: J. Boll, B. Kennedy, T. Link, M. Shrestha, J. Tracy

MRI: Acquisition of a Thermal Ionization Mass Spectrometer (TIMS) to strengthen collaborative Inter-University programs in isotope geochemistry. \$1.19M (includes University match of \$330,000). PI – B. Kennedy, co-PI's K. Harpp, D. Geist, C. Nezat (EWU) and J. Vervoort (WSU)

The impact of hydrologic alteration on the bioenergetics of juvenile steelhead (*Oncorhynchus mykiss*). USBOR \$171,000. Sole PI: B. Kennedy.

The evolution of life history in Snake River fall Chinook salmon (*Oncorhynchus tshawytscha*) \$254,000. Bonneville Power Association. Sole PI: B. Kennedy.

Integrating life history monitoring and life cycle modeling of fall Chinook (*Oncorhynchus tshawytscha*) \$92,525. NOAA. Sole PI: B. Kennedy.

USGS- YEAR 2: Comparative Survival of reservoir reared and reservoir bypassed spring Chinook salmon in the Willamette River Basin. \$138,378, BPA – NWPC. Co-PI's B. Kennedy and C. Caudill.

Evaluation of adult UWR winter steelhead and summer steelhead upstream migration, distribution,

survival, and life history. \$391,246, US Army Corps of Engineers, Co-PI's C. Caudill and B. Kennedy.

Development of an analytical approach for improving estimates of juvenile salmon and steelhead abundance. Idaho Department of Fish and Game. \$96,361. Sole PI B. Kennedy.

Integrating landscape scale approaches to understand mechanistic drivers of Chinook salmon (*Oncorhynchus tshawytscha*) life history variation in the Salmon River, ID. DeVlieg Foundation \$50,000. Co-PI's B. Kennedy and A. Fremier

Building an Integrated Data Harvester and Analysis Software for the Methow Basin with Future Linkages to Columbia River Basin Data Management. USBOR \$497,000. A. Fremier, PI, Co-PI's B. Kennedy, and C. Caudill.

Identifying overwinter location and natal origins for juvenile Snake River fall Chinook salmon \$40,000 - NOAA – Sole PI: B. Kennedy

Previous awards

Collaborative Research: FSML – Enhanced Cooperative Research and Education at Flathead Lake Biological Station and Taylor Wilderness Research Station. National Science Foundation. \$595,775. **2009 – 2013**. PI's J. Stanford (University of Montana) and J. Gosz (University of Idaho) with co-PIs E. Galindo, H. Hess, B. Kennedy, B. Ellis, and R. Hauer.

Estimating the relative abundance and production of Chinook salmon life history types in the Willamette River system. U.S. Army Corps of Engineers. \$140,000. **2009 – 2011**. Co-PIs – C. Caudill and B. Kennedy.

Water Resources in a Changing Climate: Idaho EPSCoR RII. National Science Foundation, \$15,000,000. **2008 – 2012**. PIs J. Shreeve, V. Walden and G. Bohach. Along with statewide leads (Current Director, Dr. Peter Goodwin), one of 12 junior faculty statewide developing the research and educational directions.

A planning proposal for expanding capacity at Taylor Ranch Wilderness Field Station in a strategic, sustainable and sensitive manner. National Science Foundation. \$25,000. **2008 – 2010**. PI – B. Kennedy with co-PIs J. Gosz, S. Daley-Laursen and M. Scott.

Salmon River Observatory Network: Quantifying life history and genetic diversity of *Oncorhynchus mykiss* in the Skeena River. University of Montana – subcontract of award from Moore Foundation. \$49,800. **2008 – 2010**. PI – B. Kennedy.

Mechanistic relationships between flow and *Oncorhynchus mykiss* foraging, energetics and population viability in a hydrologically disturbed ecosystem. US Bureau of Reclamation. \$640,000. **2007 – 2013**. PI – B. Kennedy.

Using otolith microchemistry and microstructure to assess the causes and consequences of alternate life history strategies for Snake River Fall Chinook. NOAA-NMFS, \$260,000. **2007 – 2010**. PI – B. Kennedy.

A study of ecological recovery and recolonization in Icicle Creek, WA. Wild Fish Conservancy, \$45,318, **2007 – 2009**. PI – B. Kennedy, subaward from Icicle Creek Fund.

- Oncorhynchus mykiss* life history variability in the Middle Fork system: migratory decisions in a disturbed wilderness environment. DeVlieg Foundation. \$38,000. **2007 – 2009**. PI – B. Kennedy.
- Water of the West: Towards a Sustainable, Interdisciplinary Water Resources Program. Office of the Vice President for Research, University of Idaho. \$1,650,000. **2006 – 2012**. PIs J. Boll (Lead), B. Cosens, F. Fiedler, C. Harris, B. Kennedy, L. Johnson, T. Link, M. Tuller, and P. Wilson.
- The development and test of a spatially explicit bioenergetics model to identify determinants of survival for juvenile chinook salmon in the Big Creek watershed. NOAA-NMFS. \$80,000. **2006 – 2008**. PI – B. Kennedy.
- Effect of Arsenic on Bull Trout: An Investigation of Mine Cleanup Practices in the Pacific Northwest. USFWS – Upper Columbia Fish and Wildlife Office, Spokane, WA. \$51,000. **2006 – 2008**. PI – B. Kennedy with Co-PI with J. Hansen
- Using otolith microchemistry to distinguish natal origin and habitat usage of spring/summer Chinook salmon in the Snake River basin. NOAA-NMFS, Northwest Fisheries Science Center. \$30,000. **2007**. PIs – B. Kennedy, R. Zabel and M. Schuerell.
- Boise River Project: Reservoir Operations Flexibility Investigation, Phase I: Deadwood Project. US Bureau of Reclamation. \$833,000. **2007 – 2012**. PIs – C. McGrath, B. Kennedy, P. Goodwin and J. Imberger
- Developing Tools To Minimize Jurisdictional Barriers To Achievement Of Fishery and Water Resources Goals In Lapwai Creek, Idaho. USGS – 104B Fund. \$20,000. **2008**. PIs – B. Kennedy and B. Cosens.
- Exploring the utility of otolith microchemistry to describe life history variation and migrational strategies of Chinook salmon in the Middle Fork of the Salmon River. USDA – Forest Service, Rocky Mountain Research Station. \$15,792. **2006 – 2008**. PI – B. Kennedy
- Dispersal of perch larvae: understanding source-sink dynamics in an altered ecosystem. University of Michigan, Office of the Vice President for Research (OVPR at Michigan), \$75,000. **2003 – 2005**. PIs – B. Kennedy, D. Jude and J. Blum
- Watershed – Great Lakes Interactions: Defining the Ecological Footprint of the Muskegon River Watershed on Fisheries in Nearshore Lake Michigan. University of Michigan, Office of the Vice President for Research. \$100,000. **2003 – 2005**. PIs – E. Rutherford, M. Wiley, B. Kennedy, J. Blum, D. Eadie.
- Using stable isotopes of strontium to identify the natal origins of native fishes in the Grand Canyon section of the Colorado River Basin. United States Geologic Survey. \$25,000. **2003 – 2005**. PIs: B. Kennedy, K. Nislow, J. Blum; USGS,
- Links between mesohabitat classes, food consumption, growth and production of juvenile Atlantic salmon. Norges Forskningsråd (The Research Council of Norway). \$300,000. **2000 – 2005**. PIs – T. Forseth, O. Ugedal, T. Borsanyi, B. Kennedy, and B. Letcher.
- Identification of salmon by geochemical signatures; Classification of important stocks, and further development of methods. Norges Forskningsråd (The Research Council of Norway). \$30,000. **2000 – 2005**. B. Kennedy – Sub-contract for consultation and analyses on grant to Fiske.

Using geochemical tracers in otoliths to identify the natal origins of Chinook salmon in the Middle Fork of the Salmon River, Idaho. USDA – Forest Service, Rocky Mountain Research Station. \$2,000. **2003 - 2004**. PI – B. Kennedy.

Atlantic salmon restoration in New England: assessing habitat availability by combining stable isotope technology, genetic markers, and field evaluation. NOAA – NMFS. \$400,000. **1999 – 2004**. PIs – C. Folt, J. Blum, P. Chamberlain, K. Nislow, and B. Kennedy.

TEACHING ACCOMPLISHMENTS

Courses Developed and Taught

University of Idaho

- Fall 2005 – 2015 (except 2013 Sabbatical): Fish 314 & 315, Fish Ecology and Fish Ecology Laboratory – 4 credits.
- Fall 2014 & 2015: Fish 404, The Ecology of Rivers – 4 credits, Part of *Semester in the Wild*.
- Spring 2015 & 2016: Water Resources 507, International challenges to Water Resource Issues – a study abroad course for graduate students that is collaborative with Chilean universities.
- Spring 2016: Fish 430, Riparian Ecology and Management – 3 credits.
- Spring 2013: Fish 530, Advanced Population Ecology – 3 credits.
- Fall 2011: Fish 530, Advanced Stream Ecology – co-taught with Fremier – 3 credits.
- Fall 2009: Fish 504 & 505, The Ecology of Running Waters – co-taught with Fremier – 3 credits.
- Fall 2008: Water Resources 506, Interdisciplinary Methods in Water Resources – co-taught with Cosens and Fiedler – 3 credits.
- Spring 2008: Fish 504, A Field Approach to Advanced Fish Ecology – 3 credits
- Fall 2005, 2006, 2007: Natural Resources 101, Introduction to the Natural Resource Professions – 1 credit.
- Fall 2005, 2006, 2007: Fish 102, Introduction to the Fish and Wildlife Professions – co-taught with Rachlow – 1 credit.
- Spring 2007: Fish 504, Advanced Ecology and Behavior of Fish – co-taught with Peery – 1 credit.
- Spring 2006: Fish 504, Hypothesis Development and Grant Proposal Writing – co-taught with Hampton – 3 credits.
- Fall 2010: Wlf 541, Advanced Population Biology – co-instructor with Garton – 3 credits.

University of Michigan, Camp Davis Geology Field Campus in Jackson, WY.

Summers 2014 & 2015: Geol 450, Ecosystem Science of the Rocky Mountains – co-taught with Baumiller, Blum and Zak – 5 credits.

Summers 2003 - 2013: Geol 341, Ecosystem Science of the Rocky Mountains – co-taught with Baumiller, Blum and Zak – 4 credits.

University of Michigan

Fall 2002 and Winter 2003: Geol 201, Earth System Science

Students Advised

Graduate Students – Completed

- Knut Marius Myrvold, Ph.D. (Spring 2014)
 Liza Mitchell, M.S. (Spring 2014, coadvised with Alex Fremier)
 Jessica Helsley, M.S.

Sam Bourret, MS (Spring 2013)
 Chau Tran, M.S. (Fall 2012)
 Jens Hegg, M.S. (Spring 2011)Chris Lorion, Ph.D. (Fall 2007)
 Brian McIlraith, M.S. (Fall 2010 – coadvised with Chris Caudill)
 Richard Hartson, M.S. (Summer 2010)
 Ellen Hamann, M.S. (Spring 2010)
 Timothy Kiser, M.S. (Spring 2009)
 Kara Cromwell, M.S. (Spring 2009)
 Elizabeth Rosenberger (Seminet-Reneau), M.S. (Summer 2007 – lead advisor, S. Hampton)

Graduate Students – Current Ph.D.

Jens Hegg, Ph.D.
 Natasha Wingerter, Ph.D.
 Sammy Matsaw, Ph.D.

Graduate Students – Current M.S.

Jeff Caisman, M.S.
 Bryce Oldemeyer, M.S.

Graduate Students – Committee Member

Dana Weigel, Ph.D. (completed 2013)
 Sharon Parkinson, Ph.D. (completed 2013)
 Sagar Neupane, M.S. (completed 2012)
 Karen Laitala, M.S. (completed 2008)
 Chris Anderson, M.S. (completed 2007)

Undergraduate Theses and Research Advisor

Clifford J. Smith – CRISSP REU – 2013
 Timothy Taylor – CRISSP REU – 2012 (*)
 Jeff Caisman – CRISSP REU– 2011 (*)
 Alifia Merchant– CRISSP REU– 2011 (*)
 Kevin Ramus – Engineering REU – 2010 (*)
 Elise Otto – ENVS REU (with Fremier)– 2010 (* joint with Stauffer Norris)
 William Stauffer-Norris – ENVS REU (with Fremier)– 2010 (* joint with Otto)
 Timothy Kuzan – CRISSP REU– 2010
 Kristen Pilcher, ECB thesis– 2009
 Alex Filous, Fisheries Honor’s thesis– 2009
 Dean Holecek, Fisheries Honor’s thesis– 2008 (*)
 Tobyn Rhodes, ECB thesis – 2008
 Greg Malone, ECB thesis – 2007
 Bryan Stephens, Fisheries Honor’s thesis – 2007
 Rachel Kaminski, REU – 2006
 Rufus Nicoll, REU – 2006
 Jesse Davis, Fisheries research experience– 2005

(*) = expected to or has resulted in a peer-reviewed manuscript

Honors and Awards while at University of Idaho

Inspirational Mentor –Awards for Excellence	University of Idaho	2015
University of Idaho Excellence Award – Interdisciplinary and Collaborative Efforts		2014
Inspirational Mentor –Awards for Excellence	University of Idaho	2013

Participant in LEAD 21 – Leadership training	National Land Grant Institutions	2012
Inspirational Mentor –Awards for Excellence	University of Idaho	2007
Inspirational Mentor –Awards for Excellence	University of Idaho	2006

Major University Development and Advancement

Major contribution has been working on behalf of the College's teaching and research facilities with particular focus on establishing a strategic plan and a competitive vision for Taylor Wilderness Research Station (TWRS).

Major Roles and Responsibilities include:

- 1) Developing a master plan of sustainable growth and increased visibility of TWRS funded through the National Science Foundation's field stations program
- 2) Organizing workshops and delivering information for invited individuals to provide input on appropriate directions and leadership for TWRS (Post Falls, April 2008; TWRS, October 2008).
- 3) Collaborating with regional partners, Flathead Lake Biological Station and Yellowstone Ecological Research Center on networking the respective field stations to increase respective strengths and develop collaborative opportunities
- 4) Representing the College of Natural Resource's teaching and research facilities as chairperson on the University committee to seek sustained growth and increased visibility of TWRS
- 5) Cultivating relationships with potential donors and supporters of the facility to ensure the sustainability and scientific viability of this University asset

Founding and core faculty member for University's Water Resource Graduate Program.

Major Roles and Responsibilities include:

- 1) Developing interdisciplinary graduate curriculum and facilitating the course offerings
- 2) Participating in graduate student recruitment for diversity and excellence, as well as retention
- 3) Leading and collaborating on interdisciplinary funding opportunities that address regional water issues
- 4) Facilitating as co-PI on successful funding of a major IGERT award for 25 graduate students over a proposed 4 year program
- 5) Co-leading an integrative international course in Concepcion, Chile (Annually 2015 – 2018)

SERVICE

Major Committee Assignments

Regional and International

Palouse Biogeosciences Collaborative – Chair (2011 – present)

Co-convener, International Population Ecology of Salmonids symposium (May 2015)

University of Idaho:

Principal Investigator, Thermal Ionization Mass Spectrometer laboratory (2013 – present)

Taylor Wilderness Research Station Scientific Advisory Board (Chair, 2009 - 2012)

Graduate Curriculum Request for Innovation (2009)

Science and New Technologies Building Leadership Team (2007 – 2)

Environmental Science Program (Annual 2005 – present)

Ecology and Conservation Biology Program (Annual 2005 – present)

Statistical Ecologist Position Search Committees (3 searches, 2006 – 2008)

New Science and Technology Building – Design and Architecture Team Selection Committee (Fall 2006)

Waters of the West:

IGERT – Water resources graduate grant, co – PI, curriculum and recruitment committees (2013-present)
 Steering committee (2007 – present)
 Lapwai Basin Integrated Analysis – co-coordinator with Cosens (2008 – present)
 Representative for Environmental Science Position Search Committee (October 2006)

College of Natural Resources:

ECB awards committee chair. (Spring 2006)
 Taylor Ranch Wilderness Research Station Advisory Committee. (2006 - 2008)
 Space Committee Representative (2008 – 2010)

Department of Fish and Wildlife:

Awards Committee (2006 – 2008)
 Limnologist Position Search Committee (2006 - 2007)
 Braatne Tenure Review Committee (November 2006)
 Wilhelm Tenure Review Committee (November 2009)
 Riparian Position Search Committee (2007 - 2008)
 Vierling Tenure Review Committee (November 2007)

Leadership positions

Palouse Biogeosciences Collaborative (Chair, 2011 – present)
Committee Chairperson – Taylor Wilderness Research Station Scientific Advisory Board (Chair, 2009 - 2012)
Secretary and Treasurer – Idaho Chapter of the American Fisheries Society (2006 – 2008)

University meetings organized

Spring, 2008. Taylor Ranch and Wilderness Research and Educational Research Opportunities strategic workshop. Co-coordinator with Mike Scott, Jim Gosz, and Steven Daley-Laursen.
 Spring, 2007. Landscapes to Riverscapes: Bridging the gaps between research and management of stream taxa and their ecosystems – University of Idaho – annual UI-ISU interdepartmental symposium. Co-organizer with Kerry Reese and Colden Baxter.
 Spring, 2006. Big Creek Symposium – University of Idaho. Featuring 25+ researchers and managers with interests related to the Middle Fork Salmon River ecosystem.

Professional and Scholarly Organizations

Ecological Society of America (1997 – Present)
 American Fisheries Society (2000 – Present)
 Idaho Chapter of the American Fisheries Society (2005 – Present)
 American Society of Naturalists (2009 – Present)
 Sigma Xi (2005 – Present)
 North American Benthological Society (1997)

Recent manuscripts and proposals reviewed

Ecology
Ecological Applications
National Science Foundation
Marine Ecology Progress Series
Limnology and Oceanography
Idaho Academy of Sciences
Hudson River Foundation

Guest Editor

Ecology – Ecological Society of America

Letters of recommendation from the following individuals are available upon request

Dr. Carol L. Folt, Professor & Chancellor
Ph.D. Advisor, Ecology and Evolution
Chancellor
University of North Carolina
Chapel Hill, North Carolina 03755
Phone: (919) 962-1365
Email: carol.folt@unc.edu

Dr. Steven Daley-Laursen, Professor
Former Dean and President at Univ. of Idaho
Senior Executive to the Vice President for Research
University of Idaho
Moscow, Idaho 83843-3010
Phone: (208) 885-5804
Email: stevendl@uidaho.edu

Dr. Joel D. Blum, John D. MacArthur Professor
Postdoctoral mentor
Department of Geological Sciences
The University of Michigan
2534 C.C. Little Building
Ann Arbor, Michigan 48109-1063
Phone: (734) 615-3242
Email: jdblum@umich.edu

Dr. Peter Goodwin, DeVlieg Presidential Professor
Professional colleague
Director, Center for Ecohydraulics Research
College of Engineering, 322 E. Front St. Suite 340
University of Idaho
Boise, ID 83702
Cell: (208) 850-1211
