Contents

Introduction	xi
Part I: Planning	1
Chapter 1: Planning for Instruction That Develops Written Communication Skills	3
Developing Written Communication Skills: Some Basic Ideas	3
Principle 1: The Writing Process Has Three Phases	5
Principle 2: Writing Has Different Purposes and Goals	11
Principle 3: Writing Has Different Formats	13
Principle 4: Writing Has Different Audiences	16
Principle 5: Writing Should Be Done Often	18
Modeling	18
Summary	19
Chapter 2: Constructing Effective Exercises and Activities	21
Developing Communication Across Grade Levels	21
Rich Communication Tasks	23
Using Text Features to Support Written Communication ..	26
Questioning That Engages Students	29
The Beginning, Middle, and End of Class Considerations ..	36
Prompts to Guide Mathematical Writing	38
Summary	41
Chapter 3: Making Writing a Seamless Part of Learning	43
Mathematics	43
Planning for a Safe Environment	44
Focusing on Communication in the Mathematics Classroom	49
Summary	54

Part II: Implementing	57
Chapter 4: Promoting Standards and Communicating	
Expectations	59
Expectations and Student Achievement	60
What Is Good Mathematical Writing?	60
Applying the Four Elements	62
Using Examples to Help Students Improve Writing	65
Some Strategies for Promoting Standards and Expectations	73
Summary	77
Chapter 5: Using Writing With Pairs or Groups	79
Issues of Group Selection and Structure	80
Implementing Collaborative Writing-to-Learn Experiences	83
Examples of Collaborative Writing	88
Summary	93
Chapter 6: Connecting Written and Oral Communication	95
The Writing and Speaking Mathematics Relationship	96
The Nature of Speaking-Writing Mathematics	97
A Model of Speaking-Writing Mathematics	99
Examples of Speaking-Writing to Learn Mathematics	101
Alternative Writing Opportunities	105
Summary	107
Part III: Assessing	109
Chapter 7: Managing Assessment of Students' Writing	111
Time and Material Management Issues	112
How Teachers Handle Assessment	113
What Should Be Assessed?	116
Managing Feedback	120
Applying the Assessment Process	121
Summary	123
Chapter 8: Developing Rubrics and Assessment Procedures ..	125
The Nature of Rubrics and Assessment	125
Constructing the Rubrics	127
Applying the Rubrics	132
Summary	140

..	57	Chapter 9: Using Peer and Self-Assessment Effectively	143
		Peer Review and Assessment	143
...	59	Self-Review and Assessment	145
...	60	Putting Peer and Self-Assessment Into Practice	146
...	60	Using Examples From National Assessments	147
...	62	Using Peer Assessment	150
...	65	Using Self-Assessment	152
		Summary	156
...	73	Part IV: Following Up	159
...	77	Chapter 10: Extending Students' Mathematical	
...	79	Understanding	161
...	80	Becoming Better Mathematical Writers	161
		Promoting Metacognition	167
...	83	An Example of Writing to Support Metacognition	168
...	88	Composing Word Problems	170
...	93	Summary	172
....	95	Chapter 11: Developing Professional Networks and	
....	96	Supports	175
....	97	Building Connections at the School Level	175
....	99	Promoting Writing in Math Outside School	178
....	101	Professional Networks and Resources	181
....	105	Summary	183
....	107	References	185
....	109	Index	193
....	111	About the Author	197
