

COMBINED HARVESTER TEST IS A BIG SUCCESS

Works Smoothly and Beautifully and Experiment is Highly Gratifying

After more than two years of hard labor and experiments, during which there were repeated setbacks which would have discouraged the average man...

The new machine is simple in every particular. There are no bulky masses of machinery and all of the workings are open. As the reaper moves down the standing grain, it is carried on the table and sent through three fans and in the experimental yesterday afternoon, the wheel was successfully started.

This is the third machine that Messrs Anderson and Quensen have manufactured. They worked for more than eight months on their first one but this was too heavy and therefore too expensive to manufacture.

THE A FAMILY POOR PEOPLE IN MOSCOW!
