

- **Create a CATIA sketch of your initials and save screen captures** (it does not have to be fully-defined)
- Complete the following tutorials: (PDFs can be found On BBlearn, under the Tutorial folder.)
  - **Tutorial 2.4**
  - **Tutorial 2.1**
  - **Lesson 7.5**

### **Deliverables:**

Save a single word document in your personal folder under 'Submitted Problem Sets' with the following:

- **Screen captures and documentation of your sketched initials**
- **Screen captures of the final products of the following tutorials**
  - Tutorial 2.4
  - Tutorial 2.1
  - Lesson 7.5
- **Summary of lessons learned while completing the tutorials and initials**
- **Answer the following questions**
  - What advantages and disadvantages would a company have in choosing CATIA over Solidworks?
  - Why is it important to fully constrain a sketch? How do you know if your sketch is fully defined?
