- Answer your questions!

DISCUSSION TOPIC

Real-world engineering: Expectations of engineers in industry

LOGBOOK ENTRY

WHAT ENGINEERS DO IN INDUSTRY

- Think about how your time is allocated each day as a student. How might this be different in industry?
What questions do you have about this?
- What skills do you think you will need in industry that you don't have now or didn't learn in class?
- Who do you communicate with mostly as a student? Who do you think you will communicate with in industry, and how do you think you will accomplish this?
- What constitutes professionalism with regard to all types of responsibilities?
- Write down a few questions that you would like to ask an experienced engineer..

WHEN?

Tuesday, Oct 1st

3:30-4:45pm

JEB 104
